## Stilbon **FOODS**

Stilbon Foods is a division of Stilbon Corp, an organization with more than 26 years of experience developing international trade projects. With the headquarters in Miami, Florida and offices located in Argentina and Uruguay, Stilbon Foods leverages an extensive and reliable business development network to source specific superior commodities for international food markets.

Our team of industry professionals has developed a premium supply chain of high-quality Argentinian and Uruguayan beef products to key markets such as the U.S.A, the European Union, and Asia. Production livestock is comprised of European breeds, particularly Aberdeen Angus, Hereford, Brangus and Braford, all of which are well-known for their superior beef quality and grade yield. The quality controls implemented during the livestock's lifespan and on beef production process, guarantees the well-being and health of each animal. Our products comply with all destination country market regulations for beef imports and are free of any prohibited substances.

# DESCRIPTION OF GOODS

## BREEDS: ABERDEEN ANGUS, HEREFORD, SHORTHORN, BRANGUS, BRAFORD

URUGUAYAN BEEF IS 100%  
NATURAL, HAS NO  
ADDITIVES, AND DOES NOT  
CONTAIN ADDED  
HORMONES.

We supply top quality beef from cattle raised in the uruguay region.

Our beef is sourced through a system of rigorous controls to ensure that our supply exceeds international trade regulations and standards for genetic and production quality.

Stilbon offers a variety of excellent quality beef cuts from livestock with superior genetics. Our cattle

are raised in sustainable systems with high standards of animal welfare.

The quality of the production system and livestock controls guarantee the health of each animal (absence of diseases such as BSE, FMD, etc.). This ensures their condition is free from substances that have been banned by international trade regulations due to potentially harmful effects to human health, such as antibiotics, hormones, clenbuterol, etc.
